

# PLMIG

## PLM Interest Group

### PLM Standards Workshop

The Workshop will follow the proven 'no frills' PLMIG format which promotes the maximum discussion and generates structured conclusions and actions.

#### ***What Do I Need To Bring With Me?***

A pen and paper would be useful. All other material will be provided, including working copies of proposed new standards that are already under development. Participants will be sent a Summary of the proceedings and a copy of the Standards Roadmap after the meeting.

#### ***What is the Agenda?***

Day 1	Day 2
Introductions Current Status of PLM Standards	Review of Day 1 Standards for PLM Delivery [1]
Coffee	Coffee
Which PLM Standards should be developed? - Delegate Presentations & Discussion	Standards for PLM Delivery [2]
Lunch	Lunch
Future Standards Framework Global Standards Roadmap Group Working on Selected Standards	PLM as a Profession PLM Qualifications CEO Standards and Metrics Next Steps

#### ***What is the Language?***

The language of the presentations and proceedings will be English.

#### ***How Do I Make My Input?***

The entire 2-day workshop is run as a single working group, so you will be part of everything that happens. Delegate presentations are entirely optional, but we hope to see several short (eg 15 minutes) presentations that will put forward a range of current views and ideas. Ideas and material generated during the working discussions will be recorded by the PLMIG and become part of the post-meeting documentation for participants.

You can find out more about the Agenda or add your own suggestions by contacting Roger Tempest at [standardsworkshop@plmig.com](mailto:standardsworkshop@plmig.com) or on +44 1865 880495.
