

# PLMIG

## PLM Interest Group

### PLM Standards Workshop

Over the past 3 months there have been extensive discussions about the need for standards in PLM, and the form that they should take. The PLMIG will host a 2-day event, open to everyone in the PLM industry, so that PLM professionals can meet and decide on the answers to these issues.

The Workshop will enable participants to combine their own views about PLM standards with those of the group, and will deliver an outline Roadmap for the further development of standards during the rest of 2010. The Workshop will be held in Oxford, UK on 24-25 March.

#### ***What are the Objectives?***

- Create an agreed view of the future PLM standards landscape
- Confirm the first standards that will be developed
- Produce a Roadmap for future standards approval and maintenance

#### ***Key Features***

Standards under discussion will range from PLM "building blocks", such as Product Structure and ROI, to a new and comprehensive standard for PLM Delivery. This will give users confidence and assurance that the 'As-Implemented' state is as originally sold to them, and will aid suppliers by demonstrating results and enabling follow-on projects.

#### ***Who Should Attend?***

- PLM and IT managers
- Engineering VPs and CIOs
- PLM vendors, developers and service providers
- PLM consultants
- Representatives of existing Standards Organisations
- Academics providing PLM courses and research

#### ***Why Attend?***

- Participate in the creation of new PLM standards
- Influence their content and scope
- Receive new material for your own implementation
- Help decide how PLM standards are maintained in the future

#### ***What Will It Cost?***

The delegate fee will be £950 (€1200, \$1600) per person, plus VAT as applicable, which includes Individual Membership of the PLM Interest Group. This ensures that delegates will remain an active part of the feedback process as future meetings are held in 2010. Current PLMIG members will receive a discount equal to their 2010 membership fee.

Find out more or request a Registration Form by contacting Roger Tempest at [standardsworkshop@plmig.com](mailto:standardsworkshop@plmig.com) or on +44 1865 880495.
